

INFORMATICS TECHNOLOGY FOR CANCER RESEARCH (ITCR)

Presentation Guidelines

July 15–17, 2026 • Cold Spring Harbor Laboratory

TALKS

The CSHL Audio Visual Team is located in the office/control room area at the rear of Grace Auditorium. They maintain a state-of-the-art suite of presentation and audio technologies for both Macs and PCs.

It is recommended that you download your presentation to one of the presentation computers at least thirty minutes before your scheduled talk. We support all versions of PowerPoint, Keynote, and PDF. Full-screen display of 4:3, 16:9, and 16:10 presentations is supported. You will be able to check your presentation for any errors or issues once it has been downloaded.

If your presentation contains movies or audio files, please let a member of the AV Staff know so it can be tested to ensure it is operating correctly. In certain instances, it is possible to use your own laptop if you are using proprietary software or files that will only work on your laptop. The use of web links is strongly discouraged, as their functionality cannot be guaranteed during live presentations.

Please feel free to contact the AV Team directly with any questions regarding supported formats, presentation content, or software: avstaff@cshl.edu

POSTERS

- Posters should fit within a space of 44" × 44" (1.1m × 1.1m). Supplies for hanging posters are available. Note that the poster areas are equipped with wireless internet access so you can demonstrate software and websites from a laptop or mobile device.

- For your convenience, we offer a poster printing service. For information including cost, formatting, and deadlines, please visit:

<https://meetings.cshl.edu/information.aspx?meet=ITCR&year;=26#poster>

- To include a PDF of your poster online in our Virtual Poster Gallery, [please submit a PDF](#) of your poster. The [Virtual Poster Gallery](#) will remain open for the duration of the meeting only.

VIRTUAL POSTER SUBMISSION DEADLINE: July 10, 2026
